

# CARBOFLASH FOOD

- Compliant for food according to EC 1395:2004
- Mounting on gas cylinder dip tube
- Lämplig för ALIGAL gaser
- High pressure flexible hose appropriate to CO2 TP liquid phase

Livsmedel

## Användningsområden

CARBOFLASH FOOD is a mobile, self-contained unit, allows, starting from a bottle (CO2 ALGAL 2 TP ) directly on the site ,a production of "snow" as well as a carbonic gas cloud.

(-78°C at atmospheric pressure)

The dry ice thus produced ensures a very good inerta-ge of the grape harvest in transport, in the conquests, presses and tanks of reception.

This process ensures a very good protection against oxidation

### Applikationer

Kondenserad koldioxid (CO2 DT)

### Utom

Alla andra gaser

## Specifikationer

FOOD LOGO MARKING - Flexible hose in FEP

Operating pressure..... 110 bar

..... 110 bar

Flowrate: .....6,5 Kg/min

### INFO +

The flexible hose has a maximum life of 5 years from date of manufacture

## Funktioner och Fördelar

En del av det nya matområdet

# Dimensioner

Längd (L) : 5 m

Ø1 : 6 mm

## Bruksanvisningar

OP 902

## Anslutning

**Inloppsanslutning:** Inlopp: Högtrycks flaskanslutning enligt gassorten

## Orderinformation

CARBOFLASH FOOD is a complete set including a L 5m flexible hose and its whip cable with gas fitting (hand tightening), a handle with gachette, a tromblon with 3 nozzle spraying 1.5 mm, a 110 bar spark gap
